PROFESSIONAL SUMMARY

Computer Science and Engineering (AI & ML) undergraduate graduating in 2027, with experience in product and data analytics, KPI dashboards, user behavior and feedback analysis, market research, and PRD documentation. Skilled in SQL, Excel, Python, and MySQL, with additional experience in AI/ML, NLP, Generative AI, and full-stack development.

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML) — Mohan Babu University **|** 2023–2027 **|** CGPA: 8.2/10

CCBP 4.0 Fellow — NxtWave Academy | 2023–2027

CORE SKILLS

Product: Product Metrics, KPI Analysis, User Behavior & Feedback Analysis, Requirements Gathering, PRD, Feature Analysis, Market & Competitor Research
Data: SQL, MySQL, Excel, PivotTables, Formulas, Charts, CSV Analysis, Trend Analysis
Programming & Tech: Python, Java, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, HTML, CSS, Bootstrap, Git, GitHub, Docker
AI/ML: Machine Learning, NLP, Generative AI

EXPERIENCE

Full-Stack Laravel & Livewire Intern — Kernal Technologies *(Incoming; 2-month internship)*
Selected for an upcoming internship focused on application development, feature implementation, requirements-driven development, and production-grade modules; expected to use GitHub version control, pull requests, and daily documentation.

Web Development Intern — NxtWave
Gained practical exposure to web development workflows, user-facing applications, implementation, debugging, and problem-solving using modern web technologies.

PROJECTS

Sales Data Analysis & KPI Dashboard | *Excel, CSV, PivotTables, Charts*
Analyzed sales by product and category to identify trends and performance patterns; built a KPI dashboard using PivotTables, formulas, and charts to turn raw data into actionable business insights.

AI ATS Resume Analyzer | *Python, AI/ML, NLP, Generative AI*
Developed a resume analysis application that compares resume content with job requirements, identifies relevant skills and gaps, and provides improvement recommendations.

CodeMaster — Coding Practice Platform | *React.js, Node.js, Express.js, MongoDB*
Built a LeetCode-inspired coding practice platform with problem workflows and database-backed functionality, applying usability, debugging, and user-centric development practices.

PRODUCT & DATA ACTIVITIES

Created KPI dashboards to monitor business metrics; analyzed user activity, feedback, and competitor products; documented product requirements and compared solution approaches; collaborated with teammates across technical and product activities.

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Oracle); Google Foundations of Cybersecurity.
Achievements: Solved 100+ coding problems across LeetCode, CodeChef, and HackerRank; exploring open-source contributions and Google Summer of Code (GSoC).
